

Travis Powell, President, KLS Earthworks

Travis Powell is the President of KLS Earthworks Inc. and Calgary Aggregate Recycling. He brings a fresh perspective and a strong commitment to sustainable growth and community development. KLS specializes in excavation, earthworks, and environmental construction, while Calgary Aggregate Recycling provides efficient solutions for reducing carbon emissions by recycling construction waste and contaminated soil into high-quality construction products.

As a member of the Metis Nation of Alberta, Travis is dedicated to fostering collaboration and growth within the Treaty 6 and 7 communities of Alberta. His leadership reflects a deep commitment to sustainability and community engagement, driving both economic and environmental benefits for the region.
