**Get TELUS PureFibre 1.5 Gigabit Internet
– the fastest Internet speed in Western Canada.¹**

TELUS PureFibre has the fastest internet upload speeds in Western Canada. With upload speeds more than 37x faster than the competition. Our 1.5 Gigabit Internet provides you enough speed and bandwidth to do more - all at once. Whether you're gaming, working, learning or connecting with loved ones – your experience will be seamless. TELUS delivers 100% fibre to your home on a connection that will never slow down, even during peak hours.

Offer subject to change. Conditions apply. Final eligibility for the services will be determined by a TELUS representative. 1. Not available in all areas. Traditional copper wire or copper wire hybrid networks are subject to capacity constraints and environmental stresses that do not affect TELUS fibre optic technology, which is based on light signals.

Not available in all areas. Individual results may vary depending on location, usage within the home network, internet traffic, applicable network management or server configurations. For a description of TELUS' network management practices please see telus.com/networkmanagement.

2. TELUS offers the fastest upload speed of 940 mbps in comparison to our major competitor's fastest upload speed of 25 mbps. Traditional copper wire or copper wire hybrid networks are subject to capacity constraints and environmental stresses that do not affect TELUS fibre optic technology, which is based on light signals. Not available in all areas.
